

# Captrad Stokbord

*for agricultural use*

Captrad's StokBord is a general purpose, value for money board manufactured from recycled materials. Can be fabricated and welded for a variety of applications or used as temporary flooring. Stokbord® has a unique embossed surface pattern on both sides which provides good scratch resistance. A smooth surface sheet is also available.

Market leading recycled plastic sheet  
Made from 100% recycled material - including back of store packaging, agricultural farm film waste, transit packaging  
Tough and durable  
Fully weldable

Captrad's Stokbord is a highly versatile sheet which offers many more benefits than traditional plywood. It offers significant long term cost savings as it does not rot and needs no upkeep once installed.
